

Bar Graph Sorter Exploration Questions

1. Select the option to sort by SHAPE. Create a bar graph using a RANDOM SET so that the computer gives you a group of shapes to put onto the graph. Which shape is there the most of? How many of that shape are there and how can you tell?
2. Which shape is there the least of? How many of that shape are there and how can you tell?
3. Select the option to sort by COLOR. Create your own bar graph by selecting MAKE OWN and choose the amount of each color that you want to put on your bar graph. How many red shapes are on your bar graph? How can you tell?
